MHANED IDOUCHEN

FULL STACK WEB DEVELOPER

PROFILE

Technology-driven Full Stack Web Developer specializing in HTML, CSS, JavaScript, PHP and MySQL. Experienced in web development, Git, clean code practices and solving programming problems. Skilled in deploying and managing websites with Cloudflare and Hostinger, with skills in on-page and technical SEO and a complementary background in graphic design.

WEB DEVELOPMENT EXPERIENCE

Independent Web Development Projects

• Build responsive websites with HTML, CSS and JavaScript.

• Develop server-side features and database-backed functionality using PHP and MySQL.

• Work on website interfaces, administration panels and content management features.

• Deploy and manage websites on Hostinger and Cloudflare; configure domains, DNS and SSL/HTTPS.

• Optimize page titles, meta descriptions, headings, clean URLs and XML sitemaps for SEO.

• Debug issues, improve code organization and use Git for version control.

DESIGN SKILLS & EXPERIENCE

Adobe Photoshop · Adobe Illustrator · Canva

Branding & visual identity · Social media design · Print design · Photo retouching · Photo manipulation · Video editing

Freelance Graphic Designer

• Design advertising visuals, logos, flyers, posters, banners and business cards.

• Create digital content and work with clients to meet project requirements and deadlines.

EDUCATION

Bachelor’s Degree in Physics and Electronics

Faculty of Sciences - Agadir

PROFESSIONAL DEVELOPMENT

Continuous self-learning through online courses and practical projects in web development, web design and digital creation.
